“

One of the things that I find truly, truly valuable in working with Utica National is really just the collaboration and having the ability to call anytime, to reach a person anytime, to have human interaction and conversation about what the needs are of our district and how I can ensure the safety of our students, and our staff, and our district. Just that accessibility piece is huge. Also, I have never worked with a group that is so welcoming, as well as encouraging and supportive in meeting the needs of our district.
